01 PROFILE

Junior full-stack developer who sees things through to the last detail. Bachelor's in Computer Science from FAV ZČU (2026), now in the first year of the master's in Software and Information Systems. I enjoy the whole journey from the architecture through the backend and databases to the last detail of the interface – mostly in PHP (Nette), JavaScript (React, Vue) and Python, with MySQL, Git and Linux around it. I only call something done once it's tested and actually works.

02 EXPERIENCE

SINCE 2018

Patrol leader and leader, regional leader since 2024

Klub Pathfinder, Jižní kříž region · member since 2012

- Leading the region: coordinating units and their leaders, keeping the regional accounts, running weekend events.
- Camps are my passion: I ran one as programme leader and two as head leader. Budget, programme, team, safety and logistics for dozens of participants.
- Working with children and teenagers, handling unexpected situations in the field.
- Courses: Patrol Leader Course (2020), Unit Leader Course (2024), Master Guide – the highest level of training in Pathfinder (in progress, until early 2027).

SPRING 2025

Frontend of a self-service kiosk

Eurosoftware, now GK Software Czech Republic s.r.o. · team project, KIV/ZSW-E

- A kiosk where employees pick up products at company events. My part: the Vue.js frontend, NFC card sign-in, design and UX/UI.

SINCE 2023

Volunteer, security

United – Christian multi-genre festival

- Security at the United festival in 2023 and 2025; since 2023 I've also volunteered regularly at the smaller United City events.

2021, 2022

Mechanical engineering placement

Automa CZ s.r.o., Strakonice – industrial automation, special-purpose machines

- Twice for 14 days: assembling a climate chamber for testing Audi car displays and a fixture for inspecting Renault displays from drawings and an Inventor model; hand-finishing machined parts; warehouse and documentation.

04 EDUCATION

01 **Ing. Software and Information Systems (SWIS)** 2026 –
Fakulta aplikovaných věd, ZČU v Plzni (Faculty of Applied Sciences, University of West Bohemia)
Master's programme, 1st year.

02 **Bc. Computer Science** 2023 – 2026
Fakulta aplikovaných věd, ZČU v Plzni (Faculty of Applied Sciences, University of West Bohemia)
Bachelor's project: Open data and its analysis in spa towns for demography/education and tourism.

03 **Computer Graphics and CNC Technology** 2019 – 2023
VOŠ, SPŠ a SOŠ řemesel a služeb Strakonice (Secondary Technical School, Strakonice)

05 SELECTED PROJECTS

01 WEBAPP
CampMaster 3000
Interactive dashboard for running a camp game – route editing on a map, team management and real-time scoring.

React · Tailwind CSS · Recharts · Leaflet

campmaster-3000.vercel.app ↗

02 BACHELOR'S PROJECT
Open data in spa towns
Python pipeline over open data of nine spa towns: cleaning, metrics, 15 animated charts and 24 pytest tests.

Python · pandas · matplotlib · Power BI · pytest · Open data

github.com/ADCCZ/bkp-tmwmf ↗

03 CLIENT PROJECT
Self-service kiosk
Kiosk for company events built for Eurosoftware – my part: the Vue.js frontend, NFC card login and UX/UI.

Vue.js · JavaScript · NFC · UX/UI

PRIVATE TEAM REPO

04 FULL-STACK
Information & community portal
Custom full-stack website for the Jižní kříž region of Klub Pathfinder: user login, event registration, media.

PHP · Nette · Latte · Tailwind CSS · MySQL

github.com/ADCCZ/web_oblastni-stranky_jk ↗

05 NETWORK GAME
Networked memory game
Game for 2–4 players: a pure C server (TCP, select()), a JavaFX client and a custom text protocol.

C · TCP/IP · JavaFX · Maven · Network protocols

github.com/ADCCZ/tmwmf_sem_UPS ↗

06 WEBAPP
FoodApp "Délicious"
Food ordering on a custom PHP 8 MVC without a framework – AJAX cart, admin, SQL injection and XSS protection.

PHP · Twig · MySQL · JavaScript (AJAX) · Bootstrap 5

github.com/ADCCZ/web-foodapp ↗

OTHER PROJECTS Previous CV website React, TypeScript · KMX computer emulator C, Make · Virtual file system C, CMake · Parallel weather data processing C++, OpenMP · 3D game in OpenGL C#, .NET 8 · Software testing (10 KIV/OKS assignments) pytest, mock

06 SOFT SKILLS

- Leading teams and mentoring
- Project management and logistics
- Responsibility and calm under pressure

07 COURSES

- Patrol Leader Course (2020)
- Unit Leader Course (2024)
- Master Guide – the highest level of training in Pathfinder (in progress, until early 2027)

08 BEYOND CODE

- Guitar – acoustic, since 2011, mostly by the campfire
- Climbing and via ferratas – the hardest grade so far is D
- Video games since 2012 · Marvel films, favourite series Loki
